NOTES:

- All electrical wires, conduit and pig tails are provided by Jade and are long enough to reach the main load panel, which is also provided by Jade. The connection of the wires, conduit and pigtails, which are provided by Jade, from each component to the load panel is to be completed by the KEC or contract electrician. The KEC or contract electrician is to make the final connection from the load panel to the incoming main line.
- All gas manifolds and connection of the gas manifolds in between each unit are provided by Jade. Those connections to the main manifold from each Jade unit is to be completed by the KEC or plumbing contractor. The KEC or plumbing contractor is to make the final connection from the main manifold to the gas pressure regulator located in the specified location per drawing and then to make the connections to the main incoming gas line.
- All convenience outlets to be commercial grade GFCI breakers and outlets.
- All water connections and drain connections are to be completed by the KEC or contract plumber. Jade provides no water or drain connections only fixtures and devices that require water and / or drains. The KEC or contract plumber is to complete all the water lines to each water connection and each drain connection to the appropriate floor sink/drain.
- All units ship assembled unless otherwise specified. Jade Range ships salamanders and cheesemelters range mounted and line-ups & suites ship in as large of sections as possible for easier assembly onsite at the time of install.
